### NATURE INSPIRED KNOW-HOW

For nearly 30 years, Laboratoires KART has been researching, formulating and producing consistently high-quality, thoroughly tested product ranges, containing naturally preserved ingredients.

Our goal : perfecting the balance between genuine results, technical constraints and ethical beliefs without compromise. Complete product satisfaction, genuine pleasure in product use and a guarantee of safety with regard to its ingredients and origin are assured.

#### OUR LEITMOTIV : BE INSPIRED BY THE BEST NATURE HAS TO OFFER.

Our desire is to offer supremely high-quality organic cosmetics, naturally and unswayed by fashion. This is a long-term undertaking which has earned us the extremely rare dual Certification: BIO and BDIH. Today, the most well-known and the most stringent labels are COSMEBIO and BDIH. They have different but complementary charters. We therefore made the decision to be approved by both these bodies

We will then be able to offer products where the ORGANIC origins have dual certification. Furthermore, our manufacturing processes, packing, suppliers and our direct AND indirect environments are regularly inspected to ensure greater quality and safety.

Our efforts are unceasing and we will work hard to perfect our activity as a whole..

#### RESPECTING THE ENVIRONMENT AS A WHOLE

As a measure of our responsibility and for the purposes of recognition, we considered it essential to become a member of COSMEBIO (French professional association of ecological and organic cosmetics [www.cosmebio.org](http://www.cosmebio.org) ). Consequently, since 2005, we have been sharing our experiences with those of our fellow members involved in the same area of activity. Our reputation among connoisseurs has been forged by the quality of our products. We are grateful for their support. Today, the public is increasingly interested in natural and eco-friendly cosmetics, and the contribution we offer is both clear and transparent to all: recent converts, those whose curiosity is just being awakened, and enlightened enthusiasts alike.

Dr. ITAOUI Oussama  
P.D.G.

### A GUARANTEE OF SWISS MANUFACTURE

Swiss cosmetics have become valued products and they are recognised around the world. As is the case in other industries, the “Made in Switzerland” designation given to these products denotes an image of high quality and rightly reassures the user.

As with any symbol of high value, it can be open to imitation. This problem prompted the major Swiss manufacturers to create their own association to protect the true origin of their products and to provide a guarantee of this origin to their customers. Laboratoires Kart has been a member of this scheme since 2005. Our membership has enabled us to guarantee our products and offer complete assurance to all of our users.

### PRIVATE LABELS

Since their creation, Laboratoires Kart are commissioned to meet specific requests of formulating, manufacturing or packaging.

Our team can consider any kind of request and conduct their experiments for their achievement. We also have quantity of solutions that meet the current expectations or not requiring few case studies lengthy and costly. Our clear direction in terms of organic cosmetics also allows us to enjoy our interlocutors of the fruits of our research and developments in this field is exciting and timely.

### PROCESS QUALITY

Essential and urgent in the last phase of a command, a set of tests - quality, analysis, stability - is done at each

stage of development and manufacturing. This helps to validate and satisfy the most accurate in terms of quality and efficiency.

In addition to the galenic chapter, we provide analysis services and advice in all matters relating to the technical range of packaging design approach and product marketing.

Our company on a human scale has led us to equip us to produce any very small series. Our service is complete and can respond to even very modest goals in terms of quantity, the order of hundred pieces packaged for example.

Each project goes through three fundamental phases, namely :

#### 1- LABORATORY STAGE

- Formula creation
- Selection and tests
- Design and tests

#### 2- PILOT PHASE

- Production
- Sampling
- Tests

#### 3- CUSTOMER PRIVATE LABEL INDUSTRIAL MANUFACTURING

- Delivery in bulk or packaged

# ORALCARE

## 6 NATURAL ORGANIC TOOTHPASTES

- SAGE
- EUCALYPTUS
- THYME
- TEA TREE
- VANILLA
- LEMON

## ORGANIC TOOTHPASTES!

Our Kart Oralcare toothpastes have obtained dual BIO and BDIH certification in addition to being certified with the Swiss Guarantee Cosmetic label. All ingredients used therefore come from strictly natural sources and/or are organic (organically farmed). They contain absolutely no synthetic ingredients.

In a similar manner, all packaging (boxes + tubes + printing) has been developed according to the same specifications to be completely recyclable. You can therefore be certain and guaranteed that when you use these products your oral health will benefit from the very best our planet has to offer, while at the same time respecting the environment as fully as possible.

In addition to its many essential characteristics, its gentle abrasive action makes it the ideal and safe choice for ensuring your perfect oral hygiene.

Depending on your specific needs, it can be used in conjunction with other products from the Kart Oralcare range (toothpastes and oral healthcare products).

Refreshing

LEMON

## ORGANIC TOOTHPASTE WITH GREEN CLAY AND LEMON EXTRACTS

His main actions make him a complete care since at the same time very purifying, cleansing, major antiseptic and lasting freshness. Its exclusive formula makes a strong remineralising care for the enamel, essential for the fight against cavities. It promotes the healing of small wounds and its astringent properties reinforce this remedial effect. Its original aroma, is a favorite among children and smokers.

75 ml Tube + Case Réf.TDB09

Fortifying

EUCALYPTUS

## ORGANIC TOOTHPASTE WITH GREEN CLAY HORSETAIL SILICA AND EUCALYPTUS ESSENTIAL OIL

The main characteristic of this toothpaste is its exceptional fortifying quality for your teeth. It is a source reinforced with Silica that delivers a remineralising property to tooth enamel. It heals and stops bleeding while also fighting against tooth decay by effectively protecting the ear, nose and throat area from viral and bacterial infections. Its specific properties indirectly aid the well-being of the respiratory tract.

NOMADE 30 ml tube Réf.TD21

75 ml Tube + Case Réf.TDB06

Repairing

SAGE

## ORGANIC TOOTHPASTE WITH GREEN CLAY AND SAGE ESSENTIAL OIL

Remarkable healing action, it quickly remedies small mouth wounds. It is therefore regenerating and particularly effective against mouth ulcers. It is also excellent for remineralising tooth enamel, appreciated in the fight against tooth decay. Its renowned effectiveness combined with its highly purifying and cleansing properties rank it among our 'classics'.

NOMADE 30 ml tube Réf.TD19

75 ml Tube + Case Réf.TDB05

Soothing

TEA TREE

## ORGANIC TOOTHPASTE WITH GREEN CLAY AND TEA TREE ESSENTIAL OIL

"Relieves pain and treats affected areas", this is the benefit particularly appreciated by connoisseurs. The list of this toothpaste's remarkable properties is long; it is soothing, analgesic, antiseptic, repairing and anti-inflammatory. It is effective in relieving all irritations of the mouth, treating the affected areas at the same time. Highly effective in remineralising tooth enamel, it is part of the total fight against tooth decay.

75 ml Tube + Case Réf.TDB07

Protecting

THYME

## ORGANIC TOOTHPASTE WITH GREEN CLAY AND THYME ESSENTIAL OIL

It fights effectively against bacteria and helps to maintain a healthy mouth. Astringent, antiseptic and healing, it also contains powerful cleansing and purifying qualities. Its remarkable antibacterial action, teamed with all of these excellent properties, promotes the continued remineralisation of tooth enamel and its anti-cavity action.

NOMADE 30 ml tube Réf.TD20

75 ml Tube + Case Réf.TDB04

Whitening

VANILLA

## ORGANIC TOOTHPASTE WITH GREEN CLAY AND VANILLA EXTRACTS

It can be considered as a natural whitening formula. This faculty comes from its distinct feature of being able to provide deep down cleansing and revive the whiteness of tooth enamel. This effect, reinforced with its remineralising power, also enters into the fight against tooth decay.

75 ml Tube + Case Réf.TDB08

Travel-sized toothpaste tubes, 30ml tube.  
Ref.TD19 «Sage», ref.TD20 «Thyme» and ref.TD21 «Eucalyptus».

# FLORAL WATERS

- ROSE WATER
- ORANGE BLOSSOMS
- CORNFLOWER
- LAVANDER
- HAMMAMÉLIS
- SWEET MINT
- VERBENA

OUR 7 LEGENDARY  
FLORAL WATERS

## GENUINE FLORAL WATERS FROM LABORATOIRES KART

Floral waters are obtained by the distillation of petals, entire flowers, or other parts of every aromatic plant. For most of them, the odorous and active components present in plants are isolated by soaking, then easily collected via water steam.

This natural method ensures to floral Waters a genuine quality, the preservation of flavours and the development of their specific properties. Their numerous virtues have made of them very appreciated and widely used products since Antiquity.

soothing - calming

### CORNFLOWER WATER

This very fresh water is recommended for its emollient and softening qualities in the treatment of irritated and inflamed skins. It is used as compresses, to be applied directly on the skin or on tired eyes.

Ref. EF05

refreshing - purifying

### LAVENDER WATER

Lavender water is very refreshing, it stimulates and invigorates the epiderm. Sensitive skins appreciate its softness and calming virtues, ideal after sunburns or insect bites. It also naturally purifies and restabilizes oily skins.

Ref. EF03

toning - firming

### ORGANIC VERBENA WATER

Invigorating and clarifying, this floral water refines skin texture and brings out the beauty of the face. Used on the body, it is effective against cellulite while at the same time firming up the skin. With a refreshing, slightly lemony scent, this hydrolat may be used as an eau de toilette.

Ref. EF07

stimulating - perfumed

### ROSE WATER

Douce et tonique à la fois, l'eau de rose convient parfaitement à toutes les peaux. Elle rafraîchit et soulage les plus sèches tout en équilibrant les plus grasses. Elle a un pouvoir astringent sur des épidermes âgés, atténuant ainsi ridules, gerçures et petites poches sous les yeux.

Ref. EF02

astringent - invigorating

### HAMAMELIS WATER

Hamamelis Water has astringent properties, it is thus as a tonic lotion that it is mostly used. It relieves heavy legs, tired eyes, and gives an incredible sensation of energy and freshness on the face with make-up taken off. Its high softness allows its application on every type of skin, notably irritated or sensitive.

Ref. EF04

stimulating - soothing

### SWEET MINT WATER

Closely related to peppermint, sweet mint has similar properties. It stimulates blood microcirculation, thus relieving itching and skin conditions. Moreover, its purifying attributes mean that it is a hydrolat recommended for problematic skin. The main difference is its low menthol concentration, which also makes it completely safe for facial use.

Ref. EF06

relaxing - aromatic

### ORANGE BLOSSOMS WATER

Here is a water that can be used in multiple manners. Directly on the skin, it is recognized for its refreshing but also calming and softening virtues. Diluted in water and used orally, the Orange Blossom Water is relaxing and can be used in the child as well as the adult; the dose regimen being of 3 teaspoons mixed with a glass of water. Finally, it is also known for its culinary flavour and daintily perfumes pastries and hot drinks.

Ref. EF01

## 5 ORIENTAL TREATMENTS FROM ANCESTRAL HERITAGE

- NEUTRAL
- NATURAL
- ENHANCED
- BLACK
- GHASSOUL
- SHAMPOO
- SPRAY

## LES SOINS ORIENTAUX!

The oriental subtleties and indian tastes of a capillary care line with the natural active ingredients and ancestral richness of Henna.

In addition to its therapeutic capacities, Henna has been used for a very long time as an ingredient for perfumes and ointments and as a coloration base for fabrics. However, its most popular use remains hair dyeing and body embellishment.

The Laboratoires KART Suisse SA have been attached to uncover the purest ingredients and select a complete line of natural products strictly composed of Henna, BDIH certified.

## NEUTRAL HENNA

200g - réf. HMNE11P

Neutral Henna is obtained from the leaves of *Cassia obovata* finely reduced to powder. It is a small shrub with oval leaves still called Neutral Henna hand of Fatma. Unlike the other Hennas, it has no colouring power, but ensures to the hair exceptional strength, suppleness and brightness.

## NATURAL HENNA

200g - réf. HMNA12P

Natural Henna is obtained from the leaves of *Lawsonia inermis* finely reduced to powder. It is a small thorny shrub of 2 to 5 m, encountered in North Africa, in the Middle-East, and in India. Used since Antiquity for its dyeing properties, it gives hair a mahogany brown colour, more or less intense following the time of application. Moreover, it provides hair with exceptional strength, suppleness and brightness.

## ENHANCED HENNA

200g - réf. HMRE13P

Enhanced Henna contains Natural Henna (*Lawsonia inermis*), Neutral Henna (*Cassia obovata*) and Oriental Alkanet (*Alhr-ena*). Its composition varies according to its origin. It gives hair a dark auburn colour. In addition to its colouring properties, it ensures to the hair exceptional strength, suppleness and brightness.

## BLACK HENNA

200g - réf. HMNO14P

Black Henna contains Natural Henna (*Lawsonia inermis*), Neutral Henna (*Cassia obovata*) and Logwood (*Lignum campechianum*). Its composition varies according to its origin. It enhances the black colour of hair but it does not tint white or bleached hair.

## GHASSOUL

200g - réf. HMGH15P

Ghassoul is a completely natural soap-making clay that foams and washes like a real soap, leaving on the skin an unrivalled sensation of softness. It can be used as a shampoo. It is particularly recommended for oily hair, giving them back their natural silkness and freshness.

Display HM10 containing 25 bags of 5 references in a presentation suitcase.

*The Henna range is also composed of a shampoo and a liquid spray to keep a safe health and to perfect demanding hair.*

## 8 SPECIFIC ORGANIC CARES WITH BIOLOGICAL ASSETS

- HAND CREAM
- GENTLE PEEL
- EYE CONTOUR CREAM
- SPECIFIC DAY CREAM
- SPECIFIC NIGHT CREAM
- BODY MILK
- UNIVERSAL SHAMPOO
- UNIVERSAL SHOWER GEL
- CREAM OF CREAMS

«The action of silica in therapy is called to play a great role.»  
Louis Pasteur - 1878.

### «FIRST RANGE OF ANTI-AGEING CARE USING HORSETAIL SILICA AND BIOLOGICAL ASSETS!»

In any occasion, any time of the day and to take with you anywhere. Just apply them on the blood points (temples, neck, plexus, or the palm of the wrists).

100% natural.

#### HAND CREAM

75 ml - réf. SPCMBIO

#### GENTLE PEEL

75 ml - réf. SPPDBIO

#### EYE CONTOUR CREAM

15 ml - réf. SPCCYBIO

#### SPECIFIC DAY CREAM

50 ml - réf. SPCJBIO

Genuine care and beauty product containing numerous moisturising, softening, regenerative, remineralising, nourishing, soothing and emollient organic active ingredients; a wealth of properties ideal for ensuring the long-lasting protection of hands that undergo periodic or intense harsh treatment. Dry or damaged skin is quickly protected, repaired and improved. This cream can also be a valuable aid in the treatment against eczema.

SiO2 gentle peel is suitable for use on the face, giving it a remarkable 'new skin effect'. Its specially designed formula allows it to gently exfoliate and clean the top layer of the skin. It contains organic active ingredients that offer a long-lasting moisturising, soothing, nourishing, remineralising and softening effect on the skin, leaving it better protected against the outdoor elements and letting a new radiance shine through with an undeniable feeling of comfort and softness.

Rich in moisturising, remineralising and anti-aging organic active ingredients, this cream is specifically formulated for the sensitive skin around the eye contour area. Containing essential elements with properties recognised as helping to soften skin tissue and preserve its elasticity, it offers long-lasting results on the reduction of fine lines and wrinkles.

SiO2 day cream contains a large number of foremost moisturising, remineralising and anti-aging organic active ingredients, with properties that are ideal for softening and preserving the elasticity of the skin and therefore spectacularly reducing the spread of fine line and wrinkles. The combination of organic oils and essential elements in this exclusive formula mark it out as a rapid and very effective aid in combating the effects of time and tiredness.

#### SPECIFIC NIGHT CREAM

50 ml - réf. SPCNBIO

#### BODY MILK

200 ml - réf. SPLCBIO200  
1000 ml - réf. SPLCBIO1000

#### UNIVERSAL SHAMPOO

250ml - réf. SPSBIO250

#### CREAM OF CREAMS

150ml - réf. SPDCBIO

Specifically formulated for overnight regeneration of the skin. Free from the environmental onslaught of the sun or pollution, the skin rests deeply during the night and 'recuperates' better thanks to moisturisation and targeted sources of nutritive elements. The anti-aging, remineralising and regenerative organic active ingredients specific to this 'night time' formula set to work carefully and gently. They encourage and reinforce anti-eczema and anti-acne treatments.

Thanks to its numerous moisturising and protective organic active ingredients, this lotion is a genuine solution for your body's skin in terms of pleasure and well-being. Re-found softness and elasticity also prevent stretch marks. It is particularly beneficial for dry skin and eczema.

Known for their restorative properties, horsetail silica and extracts of yacon are components of choice in this gentle shampoo for daily use. The oil of jojoba and baobab rebalance and strengthen your hair.

#### UNIVERSAL SHOWER GEL

250ml - réf. SPGDBIO250

Thanks to its Orange flower water, the Laboratories KART Suisse SA universal shower gel soothes, moisturizes and relaxes. For a daily gentle use, it is suitable for all skin types.

Laboratoires KART Suisse SA have selected nectar of papamiel, an active natural asset in the anti-aging formula, but also healing and regenerating treatment for you, and it has associated it with macadamia oil and shea butter to create the cream of creams. Rich in assets, it moisturizes, nourishes, softens and protects your skin. This cream can be applied both on the face and the body. Its ease of use makes this cream your ally on a daily basis, for the whole family.

# VEGETABLE OILS

## 9 OIL CARES :

- SWEET ALMOND
- ARGAN
- AVOCADO
- BAOBAB
- BORAGE • CAROTTE
- JOJOBA
- EVENING PRIMROSE
- MUSCAT ROSE

9 SKIN AND HAIR CARES BASED  
ON VEGETABLE OILS

## A VEGETABLE OIL FOR ANY SITUATION!

Vegetable oils are used since Antiquity for their exceptional skin properties. Today, their qualities and their benefits for the skin are no longer to prove, but it is not always easy to choose your oils. Indeed, there are different methods of extraction and different qualities of oil that are not equivalent in terms of properties.

They are used directly on the skin or hair. Alone or with essential oils, floral waters and clays, oils easily sublimate your masks, haircare products, or even your night cream.

Lenitive

### SWEET ALMOND

Prunus amygdalus dulcis oil  
100 ml - réf. 0A04266

Rich in linoleic acid, sweet almond oil nourishes, softens and soothes dry or irritated skin. Extremely elasticising, she struggles against the formation of fine lines and skin fatigue. Suitable for infants.

Repairing

### BORAGE

Borago officinalis seed oil, Tocopherol  
100 ml - réf. 0A04336

Borage oil is regenerative and restorative, it's a calming and soothing oil also having good results on the treatment of eczema.

Anti-age

### ARGAN

Argania spinosa oil  
100 ml - réf. 0A04266

Powerful moisturizer, excellent anti-aging capacities. It soothes the itching. Use on skin, hair and nails for reinforcement.

Healthy glow

### CAROT

Helianthus annuus seed oil,  
Daucus carota extract, Tocopherol  
100 ml - réf. 0A04317

Macerate of carrot is very rich in antioxidants and beta carotene, which allows to prepare the skin for tanning and give a even tan.

Vitamed

### AVOCADO

Persea gratissima oil  
100 ml - réf. 0A04285

Very rich in vitamins (A, B, C, D, E, K), avocado oil is refreshing and restructures the mature skin. Protective, it prevents skin dryness.

Hydrating

### JOJOBA

Simmondsia chinensis oil  
100 ml - réf. 0A04355

Actually a wax liquid, Jojoba oil has a composition close to that of human sebum, that's what makes it so effective. Very moisturizing, restructuring and softening, it is also an excellent anti-wrinkle.

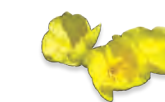

Nourishing

### BAOBAB

Adansonia digitata oil  
100 ml - réf. 0A04302

Its high content in essential fatty acids makes this oil plant particularly nourishing, regenerating, elasticising, calming and anti-oxidant.

Anti-wrinkles

### ONAGRE

Oenothera biennis oil ,Tocopherol  
100 ml - réf. 0A04321

Anti-wrinkle and elasticising, Primrose softens and revitalizes the skin. It is recommended for mature skin, eczema or acne treatment.

Regenerating

### MUSCAT ROSE

Rosa canina fruit oil, Tocopherol  
100 ml - réf. 0A04340

Rich in omega-6, Muscat rose oil stimulates cell renewal and fight against skin ageing. She fights wrinkles as well and takes care of sensitive areas.

Livre de recettes à base d'huiles végétales.

## 5 DIFFERENT SUN-DRIED GREEN CLAYS

- PASTE 100GR
- PASTE 400GR
- EXTREMELY THIN VENTILATED 300GR
- GROUND 1KG
- STRIPES

## 100% NATURAL !

Green Clay is the result of an extremely rigorous selection by the Kart Laboratories, it is BDIH certified. The quality of this raw material with no addition except from the sun's beneficial effects, is the guarantee of our products.

It is ventilated, ground, a paste ready to be used, either in stripes, or plasters, the green clay range is a natural and a complete answer to your well-being.

## THE EXCEPTIONAL QUALITIES OF GREEN CLAY

Antiseptic, antitoxic, bactericidal, healing. Through internal and external use, it disinfects and purifies the body, absorbs odours. Its high silica content is indicated in many conditions. The importance of magnesium, iron and calcium in therapy helps explain the role of clay cures. Clay has an extremely thin constitution, allowing it to store energy for other elements, especially that of the Sun, which makes it even more effective. It has a flaky structure, meaning that it has under the microscope, a layer octahedron, enclosed by two layers of tetrahedrons. This complex shape can change and sometimes reach 4 to 5 layers in the case of Green Clay. White clay (kaolinites) is formed of 2 layers, its absorption is much lower than that of Green Clay. Specialists who have good experience of clay feel that Green Clay is, among all the clays, the most active.

## INTERNAL USE

The usual daily dose is one teaspoon of ventilated clay. The clay is dissolved in a glass of water (...) in the evening, and only drink the water left the following morning. It can also be drunk before sleeping as well as 30 min. before the main meals. Start to drink only clay water during the 4 or 5 first days.

## EXTERNAL USE

### • GROUND CLAY

Mix the clay until dough is applied in a thick layer (about 1 cm) to the desired location, then protect it with gauze. Do not use plastic or metal container.

### • CLAY IN STRIPES

Cut the desired length and soak in water; bandage where desired. Once begun, the clay cure should not be interrupted before the desired outcome, with some exceptions.

### • POWDERING

Antiseptic and healing action for crevices, eczema, ulcers, some cases of erythema.

### • BEAUTY MASK

Make a paste with ventilated clay (half clay, half water or cucumber, tomato or grape juice) apply a fine layer on the face, leave on from 15 à 30 min. and remove with lukewarm water. It is possible to cure acne, face pimples, blotches, wrinkles.

### • MUD BATH

Fill in with water half of the container of your choice. Add ventilated green clay until you get a more or less liquid mass of mud. The bath lasts from 5 to 10 min. at the beginning, then from 15 to 20 min., 2 to 3 times a week.

# Kart claymask

organic cares

## 4 INTELLIGENT MASKS USING GREEN CLAY

- “HEALTHY GLOW” EFFECT
- TONING AND NOURISHING
- HYDRATING AND SOFTENING
- PURIFYING AND PROTECTIVE

## ORGANIC CARES.

Clay is an intelligent and beneficent force acting wisely and heals at a surprising pace. It hinders the growth of microbes or bacteria pathogens and promote the recovery cell. Its antiseptic power confers an important role in the care repairers.

In association with Essential Oils and many other biological assets, the face cares Kart Claymask natural clays become true allies in the protection and regeneration of the epidermis. Whatever the nature of your skin (sensitive, normal, dry or fatty), Laboratoires KART Suisse SA offer a more effective response about facial care.

The careful selection and quality of products exclusively of natural origin and / or organic, contribute to the achievement of the characteristics and properties to all ClayMask care. Our 4 formulas received double certifications ORGANIC and BDIH.

## Face mask with Pink Clay, Organic Rosehip Oil and Organic Rosewood Essential Oil

Pink Clay and Organic Rosehip Oil to moisturise, soften and restructure your skin with lasting effect - Plant glycerine and natural sorbitol for targeted moisturising - Organic sesame oil and beeswax to soften and protect - Essential rosewood oil to tone and soften your skin.

### Hydrating and softening

> 98.45% natural ingredients including 12.4% farmed organically.

Ref. CMPBIO

# ESSENTIAL OILS

39 QUALITY PROVEN  
ESSENTIAL OILS

## COUNTLESS VIRTUES!

Having been renowned and chosen for many years, all our Essential Oils have now been awarded the BDIH certification. This seal of quality certifies their natural origins and makes them more attractive to connoisseurs looking for simple solutions which have a real impact on general wellbeing.

Completely revised and redesigned, the Laboratoires Kart range of Essential Oils is now arranged into six families, each with its own colour to make them easier to identify. The 39 product lines are now categorised according to the origin of the distillate. To improve the quality of the information we offer, we have also specified the exact part(s) of the plant we use to manufacture our Essential Oils.

#	Essential Oil	Ref.	Latin name	Origine of the distillate
